Experience

www.nimbo-x.com

Monterrey, MX
Feb 2016 - Present

CTO — Nimbo X

Hands-on Full-stack product development of EHR (electronic health record) SaaS application focused in providing the best user experience

- Performant & robust multi-client backend written in Ruby on Rails
- UX-driven client-side frontend (SPA) written in EmberJS

Managing, growing, coaching the Development Team

- Implemented development workflow & best practices
- Maintaining a high-energy, high-"cadence" environment in the dev team

Defining and scaling architecture & tech stack.

- Ensuring SaaS product availability/uptime

Successfully implemented & deployed fault-tolerant API-based microservices such as:

- Solr search optimization engine
- Prescription drugs interactions engine based on Wolters Kluwer's Medi-Span®
- AI prediction engine for diagnostics & treatments based on Tensorflow

www.panax.io
